Editing data in the Content Manager

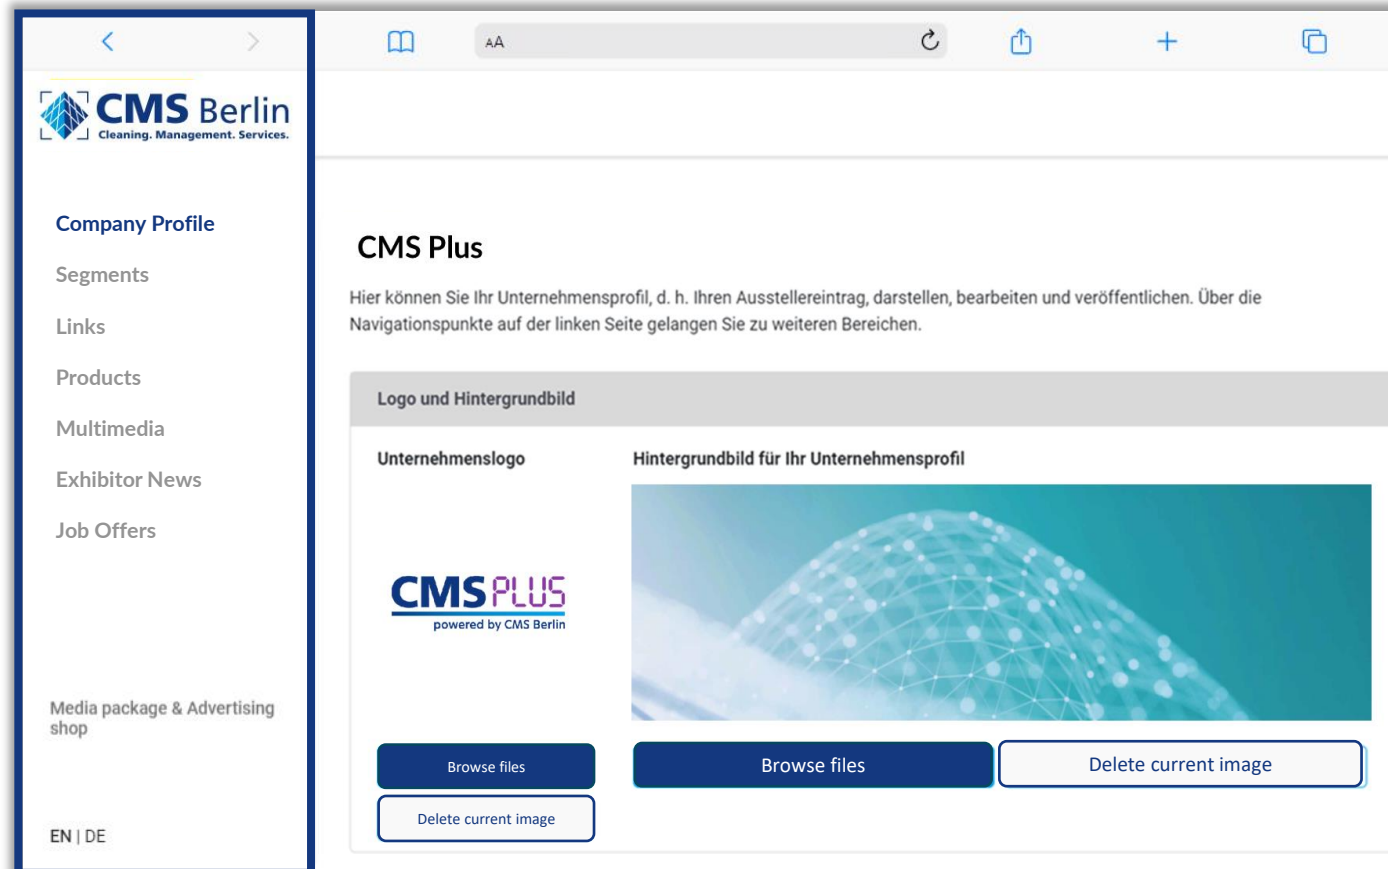

Start page:

You can design your main entry on the start page:

1. Logo & background image
2. Basic data & company description
3. Social-Media accounts

Tips for the start page:

- The background image must be uploaded in different sizes for the web and app view so that it looks good on all screens.
- We generally recommend using a wallpaper or mood image as the background image and advise against using an image with text.
